

International telephone country codes list

Below is a list of the ISO Country Codes and the country code to be used when dialling an international telephone number.

Note

When dialling another country, first dial the IDD Number (International Direct Dialling Number). This can be found in the section "International Direct Dialling Number Codes". For example, the IDD number to call from the United States is 011. Other countries have different numbers, or may have more than one IDD, depending on the carrier or type of service. Make sure you use the correct IDD.
